SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Cal OES INLAND REGION

- [See Fire Activity Section](#)

Cal OES SOUTHERN REGION

- [See Fire Activity Section](#)

Tar Balls, Los Angeles/El Segundo, Los Angeles County, SPILL: 16-5785

- On 09/21/16 at 1654 hours, the California State Warning Center (CSWC) received a report from the Los Angeles County Lifeguard Division of oil and tar balls on a beach near El Segundo/Los Angeles, Los Angeles County.
- The name of the beach is unknown.
- Per the reporting party, there was a sheen upon the water and a 200 yard area of the beach contained tar balls (dime to palm sized). The reporting party also stated that there is no plans to close the beach.
- The CSWC made all appropriate notifications per the Hazardous Materials SOP.

Cal OES COASTAL REGION

- See Fire Activity Section

San Pablo Sheen Incident, Contra Costa County, SPILL: 16-5756

- On 09/20/16 at 2039 hours, the California State Warning Center (CSWC) received a report of a pungent odor in Contra Costa County.
- A United States Coast Guard (USCG) conducted multiple overflights of the area on 09/21/16 and 09/21/16 and two sheens were identified.
 - The first sheen identified was just over a mile long by 40 yards wide on the water in the northern San Pablo Bay area. A second sheen was identified near the Phillips 66 Rodeo Refinery Marine Terminal.
- The official name of the incident is the San Pablo Sheen Incident.
- An ICP has been established at the Phillips 66 grounds, Rodeo, Contra Costa County. Multiple representatives are at scene of the ICP including the USCG, the California Department of Fish and Wildlife Office of Oil Spill Prevention and Response (OSPR), Local Government, and Phillips 66.
- Two Cal OES Agency Representatives have responded to the ICP; the Cal OES Ports and Harbors Emergency Services Coordinator (ESC) and a Cal OES Coastal Region ESC.
 - Bob Butchart, Cal OES Ports and Harbors, ESC, advises that he is on scene of the ICP.
 - The sheen is possibly from a transferring accident.
 - A test was conducted at approximately 1700-1715 hours to determine the source.
 - The cause of the existing sheen is being investigated presently.
- Unified Command has been established between the USCG, OSPR, and Phillips 66.
 - Public information has been transferred to the Joint Information Center (JIC).
 - Joint press releases will be made by OSPR and the USCG.
- A Fisheries closure will be put in place. Boundaries are being determined and the closure will go in place this afternoon (time to be determined).
- No navigational restrictions have been identified aside from speed restrictions.
- A Cal OES Internal Conference call was held on 09/21/16 at 1800 hours:
- The quantity of material released is unknown.
- The release is being measured in sheening and covered area, not barrels or gallons.
- Four OSROs (specialized vessels) have skimmed approximately 200 gallons of water and zero quantity of petroleum product was identified.
- OSPR is examining the samples and the responsible party should be determined by the analysis within 48 hours.
- The scientific approach is that it has been determined is that the substance is possibly diesel (this is unconfirmed) because of the evaporation rate. The release is evaporating, not sinking or going away with the tidal flows.
- Two Phillips 66 vessels were in the area when the sheen was discovered; they have been boomed separately. There are three areas near the vessels where sampling is taking place. One vessel was receiving bunker oil and this could be the source of the leak. The bunkering operation was shut down and Phillips 66 is testing their lines with water; no leaks have been identified at this time.
- The smell from last night could have been from multiple small fires in the area (one of the larger fires was in Richmond at a dump).
- The CSWC made all appropriate notifications per SOP.

2016 Haitian Entrants Support

Cal OES State Operations Center (SOC) is partially activated in support of this event.

Haitian Entrants, San Ysidro, San Diego County

- An unprecedented number of Haitian entrants have been arriving at the San Ysidro Port of Entry in recent weeks. Haitians, like Cubans and refugees, are a special class of immigrants who are immediately eligible for public social services upon arrival to the United States. The Haitian entrants processed by U.S. Immigration and Customer Enforcement are now sheltered at three different locations: Christ Ministry Center - United Methodist Church, City of San Diego; California National Guard (CNG) National City Armory; and the CNG El Cajon Armory. Most Haitian entrants will relocate to other parts of the country with no intent to reside long term in San Diego.
- The Christ Ministry Center shelter had an overnight population of 45 Haitian entrants with most being women and children. The CNG El Cajon Armory shelter opened on 09/20/16 and had an overnight population of 47. The CNG National City Armory shelter is operational and had an overnight population of 80 down from 126 Haitian entrants. Multiple NGO's are contributing to provide for all wrap around services for both of the shelters.

Non Governmental Organizations

- Alliance San Diego/Christ Ministry Center United Methodist Church, continues to operate the two temporary shelters established at the CNG Armories and also the Christ Ministry Center.
- The Alliance San Diego and Christ Ministry Center held a press conference at the Christ Ministry Center and hope with this public address they will obtain some support from the community.
- The Bishop's Storehouse has donated \$2,500 worth of food and supplies to support the Haitian entrants.
- Catholic Charities: Catholic Charities communicated with ORR and confirmed that recently released resources can be used for transportation and transitional housing in a manner that would be helpful in the present situation.
- The American Red Cross (ARC) is continuing to work with the Alliance San Diego and Christ Ministry Center United Methodist Church to provide unbranded cots, blankets, hygiene kits, dormitory management expertise, technical assistance and training to church personnel in managing shelters.

2016 Haitian Entrants Support

Cal OES State Operations Center (SOC) is partially activated in support of this event.

State agencies currently supporting the sheltering operations are as follows:

- The California Department of Social Services (CDSS) is coordinating with U.S. Department of Health and Human Services, Administration for Children and Families and Office of Refugee Resettlement.
- On 9/20/2016 CDSS issued a one-time augmentation of \$1.3 million of Refugee Social Services (RSS) funding provided by ORR. San Diego's share of the \$1.3 million totals \$462,998 (\$334,224 to San Diego County Health and Human Services Agency and \$128,764 to Catholic Charities/Wilson Fish - award distributed via ORR).
- CDSS Disaster Services Bureau (DSB) reached out to its feeding partners (Southern Baptist Disaster Relief, The Salvation Army, food banks, etc.) to find out if they have the resources/capacity to handle feeding operations or provide food to the shelters.
- DSB is working with our Emergency Food Assistance Program (EFAP) to research commodities programs.
- Cal Volunteers has one staff member at the National City Armory and one at the El Cajon Armory. Cal Volunteers has also activated 11 California AmeriCorps Disaster Team members to assist in sheltering operations.
- The California Department of Public Health (CDPH) is coordinating with U.S. Department of Health and Human Services, Office of Refugee Resettlement, Office of Refugee Health, and local public health.
- CDPH ORH contacted the County on the Zika testing for the pregnant women. CDPH is awaiting information from the County.
- The California National Guard (CNG) is mission tasked to stand up two Armories for shelter.

The San Diego Operational Area is monitoring the situation and will assist in the set-up of a health screening tool and connect individuals that need help with medical services.

The Imperial Operational Area is monitoring the situation in the Calexico Point of Entry and is currently not significantly impacted.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 3	Preparedness Level 3
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Soberanes, Vegetation Fire, Monterey County

Location: Soberanes Creek, Garrapata State Park, north of Palo Colorado/Big Sur

Jurisdiction: SRA

Type 1 IMT

Per Cal OES Duty Officers, CALFIRE, and ICS-209 [as of 09/21/16 at 1800 hours](#):

- [125,344 Acres](#), 71% Contained
- Expected Containment Date: 09/30/16
- 400 Single Residences; 10 Commercial Structures Threatened
- 3 Residential Structures; 2 Other Minor Structures Damaged
- 57 Residential Structures; 11 Other Minor Structures Destroyed
- Keep fire within established or previously existing control lines and firing where opportunities exist.

Deployments

- 3 Cal OES Fire Assistant Chiefs (5212, 5262, 5214, 5224)
- 4 Cal OES Public Safety Communications (PSC) Technicians
- 1 Cal OES Auxiliary Communications Service (ACS) staff

Resources Assigned

- 45 Local Government Engines
- 1 Local Government Water Tender
- 1 Cal OES MIGU
- Cal OES Comm-62

FMAG

- On 07/28/16 at 1852 hours an FMAG was approved by FEMA, FM-5137.

FIRE ACTIVITY

Soberanes, Vegetation Fire, Monterey County

Proclamations

- A signed revised extended Proclamation was received from Monterey County which includes both the Soberanes and Chimney Fires. There are no requests for state assistance.

Evacuations

- Evacuation Warnings: A small section of Monterey County along the Pacific Coast Highway (PCH) from Castro Canyon on the north; Julia Pfeiffer Burns State Park on the south, North Coast Ridge Road on the east, and Hwy 1 (PCH) on the west; Tassajara Road from Carmel Valley to the Tassajara Hot Springs Zen Center; Big Sur-Partington/South Coast Center Area including all residents and businesses east of Highway 1 starting at the intersection of Highway 1 and Grimes Canyon, extending south to the intersection of Highway 1 and Dolan Canyon. This area is bounded to the east by North Coast Ridge Road and includes all residents and businesses on Dolan Ridge Road.
- Evacuation Order: Coast Ridge Road from mile marker 1.5 to Marble Peak at the end of the road.

FIRE ACTIVITY

Soup Complex, Vegetation Fire, Modoc County

Soup Springs, 16 miles northeast of Likely, Modoc National Forest

Federal DPA, FRA

Type 2 IC

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 09/21/16 at 1723 hours:

- [2,507 Acres, 50% Contained](#)
- Expected Containment Date: 10/31/16
- 1 Single Residence Threatened
- Work on line construction on Soup 2, north, west and south flanks, access problems on east side

Resources Assigned

- 2 Local Government Engines
- 3 Local Government Water Tenders

FIRE ACTIVITY

Willard, Vegetation Fire, Lassen County

Location: Willard Creek Road, west of Susanville

Jurisdiction: State DPA, SRA

Type 3 IC

Per CALFIRE and Cal OES Duty Officers [as of 09/21/16 at 1731 hours](#):

- 2,575 Acres, [100 % Contained](#)
- Expected Containment Date: 09/21/2016
- 2 Single Residences; 5 Minor Structures Destroyed
- Hold and improve control lines, mop-up.

Resources Assigned

- 2 Local Government Water Tenders

FMAG

- On 09/11/16 at 2140 hours an FMAG was received and placed on hold.

Mission

- **2016-FIRE-26702:** The California National Guard (CNG) Armory Susanville and staff has been tasked to support the Willard Fire Incident. The facility used to support Incident Command Post

Recovery

- Lassen County is in the process of preparing Initial Damage Estimates (IDEs).
- A Cal OES Inland Region Emergency Services Coordinator (ESC) has been coordinating with Lassen County OES, and no assistance has been requested to date.

FIRE ACTIVITY

Owens River, Vegetation Fire, Inyo County

Location: Northeast of Mammoth Lakes, southwest of Bald Mountain

Jurisdiction: Federal DPA, FRA

Type 3 IMT

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 09/21/16 at [1542 hours](#):

- 5,443 Acres, [43% Contained](#)
- Expected Containment Date: 09/30/2016
- 8 Single Residences; 8 Minor Structures Threatened
- 4 Minor Structures Destroyed
- Threat to Sage Grouse Habitat, high use recreational area
- Continue direct line construction to secure fire edge adjacent to structures

Resources Assigned

- 15 Local Government Engines
- 4 Local Government Water Tenders

Deployments

- 1 Cal OES Fire Branch Assistant Chief (5216)

FIRE ACTIVITY

Canyon, Vegetation Fire, Santa Barbara County

4 miles west of Lompoc

Federal DPA, FRA-DOD

Type 2 IMT

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 [as of 09/21/16 at 1753 hours](#):

- 12,353 Acres, [70 % Contained](#)
- Expected Containment Date: 09/30/16
- 40 Nonresidential Commercial Structures Threatened
- Fire is in a restricted unexploded ordnance area
- Threat to active rocket launch facilities
- Scout opportunities for direct and indirect line where possible

Resources Assigned

- 32 Local Government Engines
- 2 Local Government Water Tender

Deployments

- 1 Cal OES Fire Assistant Chiefs (5211, 5261)
- 2 Public Safety Communications (PSC) Technicians

WEATHER SYNOPSIS BY REGION

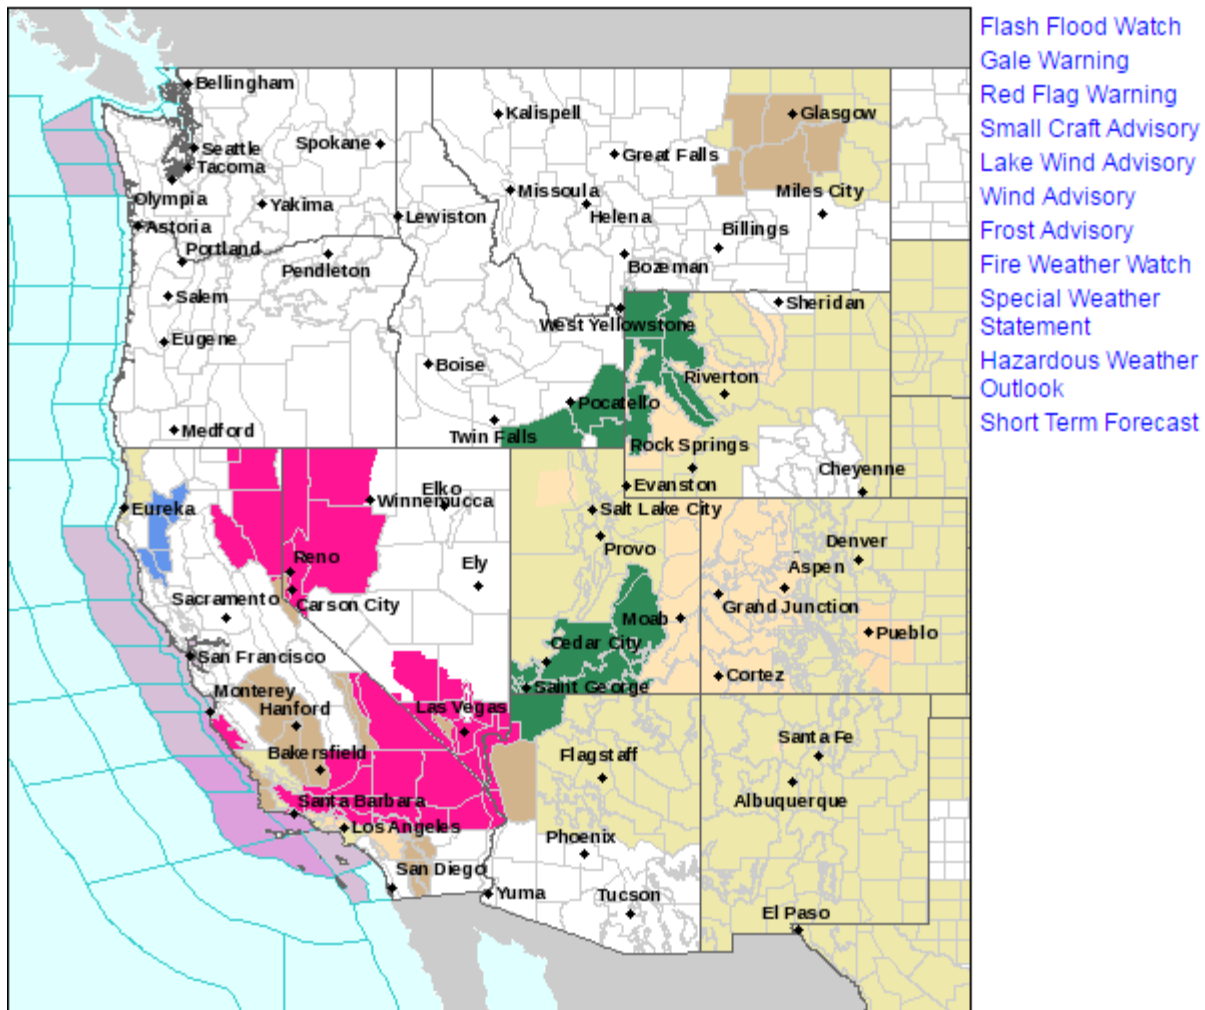

NORTHERN CALIFORNIA

A low pressure trough over the Pacific Northwest will produce a strong southwest flow over the region until this evening. Light rain showers over the El Dorado NF, Tahoe NF, and Lake Tahoe Basin will move off to the ESE over the next few hours. Southwesterly wind gusts throughout the Northern Sierra and Far Eastside PSAs will be near 40 mph and humidity will drop to 10-20% this afternoon. The trough will form into a closed low and move across far northern areas tonight and early Thursday with a few rain showers and a slight chance of thunderstorms. By Thursday afternoon the low will be in northwest NV and the last showers and isolated thunderstorms will end in our eastern areas. Rainfall totals with any showers or thunderstorms will be light, generally 0.20 inches or less with a direct hit. Temperatures across the region will be 6-12 degrees below normal through Friday, with Thursday being the coolest day. Following the passage of the low, a northerly surface wind pattern will develop from the western Sierra slopes to the coast. N-NE/offshore winds will gust to 25 mph or so during nights and mornings through Friday, then increase to 25-30 mph Friday night and continue all day Saturday. Poor overnight RH recovery will be common beginning Friday night, and daytime RH will be 10-20% in inland areas west of the crest. This wind event will approach High Risk criteria in and around the Sacramento Valley Saturday. The winds will become lighter Sunday afternoon, but still continue during nights and mornings into early next week. Afternoon temperatures will rebound to 6-12 degrees above normal Saturday through early next week.

SOUTHERN CALIFORNIA

A deep trough will pass through the northern half of the state tonight and Thursday which will generate strong winds across much of the area during the next few days. Today, winds will start to increase across the central coast where northwest wind gusts to 40 mph will be possible along the highest elevations by afternoon. Tonight these winds will expand southward into Santa Barbara County and the I-5 Corridor where winds of 15-25 mph with gusts to 45 mph will be possible. Winds will weaken tomorrow around noon, but winds will increase and may gust to 50 mph Thursday night into Friday morning once again. Relative humidity (RH) may dip into the teens in these areas late tonight, remaining low through the day Thursday. Elsewhere, some subtropical moisture remains over portions of Southern California and scattered showers and a few wet thunderstorms may develop this afternoon from San Diego County northeast into the Mojave National Preserve. Isolated showers will also be possible in the central Sierras this afternoon ahead of the trough. Temperatures will remain slightly above average today with highs in the 90s in the valleys and lower foothills. Tonight into Thursday, expect west winds to increase to 20-30 mph with gusts to 50 mph across the Sierras and into the western Owens Valley. Similar wind speeds can be expected Thursday afternoon across much of the desert, including the Kern County Mountains, Banning Pass and the Cleveland National Forest. Temperatures will be 10-20 degrees cooler on Thursday. As the system moves into the Great Basin, expect winds to temporarily weaken Friday before switching to a northeast, offshore direction Friday night. This will kick off a prolonged period of hot, dry weather with offshore flow which may last into early next week. At this time, the strongest winds appear to be early Sunday through Monday across Southern California. Expect temperatures to climb to over 100 with minimum RH to be in the single digits Saturday through next Tuesday. RH recovery will be poor each night. Cooler weather may return for the second half of next week.

WEATHER MAP

Last map update: Sep. 21st 2016 at 7:41:20 pm MDT

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Current CAL OES Proclamations

Soberanes, Vegetation Fire, Monterey County

- On 07/26/16, Acting Governor Tom Torlakson issued emergency proclamations for Monterey County due to the effects of the Soberanes Fire.
- On 07/24/16, Monterey County proclaimed a local State of Emergency.
- On 08/04/16, Monterey County requested assistance through CDAA and a Federal Declaration in order to request federal assistance through the Stafford Act.
- On 08/31/16, a signed revised extended Proclamation was received from Monterey County which includes both the Soberanes and Chimney Fires. There are no requests for state assistance.

CAL OES LAW ENFORCEMENT MISSIONS

Cal OES LAW Missions

- NSTR

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2016-Fire-26702:** The California National Guard Armory in Susanville and its staff have been tasked to support the Willard Fire in Lassen County. The facility will be used to support the Incident Command Post. **Mission Ongoing.**
- **2016-Inland-26508:** Three air monitors for the Gap Fire in Siskiyou County. **Mission Ongoing.**
- **2016-Coastal-26477:** Cal Recycle debris removal assistance requested for the Clayton Fire in Lake County. **Mission Ongoing.**
- **2016-Coastal-26412:** DTSC clean up assistance requested for the Clayton Fire in Lake County. **Mission Ongoing.**
- **2016-Southern-25043:** Request is for the California Department of Public Health to conduct detention facilities for housing and food inspections through 09/30/16. **Mission Ongoing.**
- **2016-Southern-25037:** Request is for the California Division of Drinking Water to conduct surface water inspections for 11 water systems and train new hires through 09/30/16. **Mission Ongoing.**
- **2016-SOC-26086:** California Air Resources Board to provide two (2) air monitors equipped with AIRSIS transmitters through 11/18/16. **Mission Ongoing.**
- **2016-SOC-24742:** Hazardous Waste Task Force to segregate, collect, and package hazardous waste at the 250+ destroyed and damaged structures in the Erskine Fire burn area. This is expected to be in place through December 2016. **Mission Ongoing.**
- **2016-CREOC-26667:** California Air Resources Board, Air Monitoring Equipment (4) for the Soberanes Fire. **Mission Ongoing.**
- **2016-IREOC-21748:** Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until October 2016. **Mission Ongoing.**

Cal OES 2016 DROUGHT

The SOC remains activated in support of the Drought State of Emergency and continues to monitor the situation.

Current Local Emergency Proclamations:

A total of **57** local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 25 Counties: Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 10 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of Rancho Cucamonga (San Bernardino County), City of West Sacramento (Yolo County), and City of Fort Bragg (Mendocino County).
- 10 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County), Sherwood Valley Pomo Indian Tribe (Mendocino County), Tolowa Dee-ni' Nation (Del Norte), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
